INCORPORATION OF STANDARD SPECIFICATIONS

The 2012 edition of "Standard Specifications for Public Works Construction" and the 2013 and 2014 Supplements (collectively “Standard Specifications”) are incorporated into these Contract Documents by this reference, as amended by the provisions of these Contract Documents. The Work described herein shall be done in accordance with the provisions of the Standard Specifications insofar as the same may apply, and in accordance with these Contract Documents.

SCOPE OF WORK

The Project includes, without limitation, furnishing all necessary labor, materials, equipment and other incidental and appurtenant Work necessary to the resurfacing of sixteen (16) tennis courts, replacement of 32 Net posts and ground sleeves, painting of light poles, posts and replacement of wind screen at La Cienega Tennis Facility, located at 325 S. La Cienega Blvd, Beverly Hills, California 90211, as more clearly described in the Contract Documents. This Work will be performed in strict conformance with the Contract Documents, permits from regulatory agencies with jurisdiction, and applicable regulations.

OBTAINING BID DOCUMENTS

A copy of the Contract Documents may be obtained by mail or in person from the Public Works Department, 345 Foothill Road, Beverly Hills, CA 90210, telephone number 310-285-2541. The Contract Documents, including the plans and specifications may also be viewed on, and downloaded from the City’s website: [www.beverlyhills.org/shortcuts: bid information: bid number 17-04](http://www.beverlyhills.org/shortcuts:bid%20information:bid%20number%2017-04).

PUBLIC CONTRACT CODE – INFORMAL BIDDING

City adopted the Uniform Public Construction Cost Accounting procedures set forth in Article 2 (commencing with Section 22010) of the Public Contract Code for informal bidding of public projects of one hundred seventy-five thousand dollars (\$175,000) or less.

In accordance with the Public Contract Code, City maintains a list of qualified contractors, identified according to categories of work. All contractors on the list for the category of work being bid have been mailed a notice inviting informal bids. The mailing of notices to contractors and construction trade journals pursuant to the Public Contract Code was completed more than 10 calendar days before the bids are due. As required by the Public Contract Code, this notice inviting informal bids describes the project in general terms, how to obtain more detailed information about the project, and states the time and place for the submission of bids.

MANDATORY PRE-BID MEETING AND SITE VISIT

A mandatory pre-bid meeting will be held on January 23, 2017 at 10:30 a.m. at 325 S. La Cienega Blvd, Beverly Hills, CA 90211, (Project Site). Every Bidder is required to attend the pre-bid meeting/site visit. Failure of a Bidder to attend will render that Bidder's Proposal non-responsive. No allowances for cost adjustments will be made if Bidders fail to adequately examine the premises before submitting a Proposal.

REQUESTS FOR CLARIFICATION

If you discover any error, omission, ambiguity or conflict in the Plans or Specifications and wish to have a clarification, please fax or email your request for clarification to the Project Administrator such that it is received by him or her no later than five (5) working days before Bid opening. Requests for clarification received after this date will be disregarded. Please indicate the Project and bid number in your request for clarification.

REGISTRATION WITH THE DEPARTMENT OF INDUSTRIAL RELATIONS

The Bidder's attention is directed to Labor Code Section 1725.5, which provides that a contractor or subcontractor shall not be qualified to bid on, be listed in a Bid proposal, subject to the requirements of Public Contract Code Section 4104, or engage in the performance of any contract that is subject to Labor Code Section 1720 *et seq.*, unless currently registered and qualified to perform a public work pursuant to Labor Code Section 1725.5. This requirement applies to any bid proposal submitted on or after March 1, 2015, and any contract for public work entered into on or after April 1, 2015.

PREVAILING WAGES

In accordance with Labor Code Section 1770 *et seq.*, this Project is a "public work," and thus, the Contractor and any Subcontractors must pay wages in accordance with the determination of the Director of the Department of Industrial Relations ("DIR") regarding the prevailing rate of per diem wages. Copies of those rates are on file with the Director of Public Works, and are available to any interested party upon request. Contractor shall post a copy of the DIR's determination of the prevailing rate of per diem wages at each job site.

BONDS

Bid Bond is not required with submission of bid. Upon award of Contract, Contractor shall provide faithful performance and payment Bonds, each in a sum equal to the Contract Price. Bonds must be issued by a California admitted Surety insurer and submitted using the required forms, which are in the Contract Documents. Failure to enter into a valid contract, including the submission of all required Bonds and insurance coverages, with the City within fifteen (15) Days after the date of the delivery of the contract forms to the Bidder, shall constitute a material breach and subject the Bid security to forfeiture to the extent provided by law.

LICENSES

The Bidder shall possess a valid Class A, C-12, or C-61 (D-47 Tennis Court Surfacing) Contractor's license issued by California State Contractors License Board at the time of the Bid submission. The successful Contractor must also possess a current City business license.

RETENTION SUBSTITUTION

Five percent (5%) of any progress payment will be withheld as retention. In accordance with Public Contract Code Section 22300, and at the request and expense of the Contractor, securities equivalent to the amount withheld may be deposited with City or with a State or federally chartered bank as escrow agent, which shall then pay such moneys to the Contractor. Upon satisfactory completion of the Contract, the securities shall be returned to the Contractor. Alternatively, Contractor may request that the City make payments of earned retentions directly to an escrow agent at Contractor's expense. No such substitutions shall be accepted until all related documents are approved by the City Attorney.

LIQUIDATED DAMAGES

All Work shall be completed within 45 calendar days following the date specified in the written Notice to Proceed from the City. There will be a \$500.00 assessment for each calendar day that Work remains incomplete beyond the time specified for the completion of the Work in the Contract Documents.

BIDDING PROCESS

The City reserves the right to reject any Bid or all Bids and to waive any irregularities or informalities in any Bid or in the bidding and to make awards in all or part in the best interest of the City.

II. INSTRUCTIONS TO BIDDERS

FORM OF PROPOSAL: Proposals shall be made on the Proposal forms found herein. Bidders shall include all forms and fill in all blank spaces, including inserting "N/A" (for non applicable) where necessary. The Proposal shall be enclosed in a sealed envelope bearing the name of the Bidder and the name of the Project as described in the Notice Inviting Bids.

DELIVERY OF PROPOSALS: The Proposal shall be delivered by the time and to the place stipulated in the Notice Inviting Bids. The time of delivery shall be definitively determined by the time-stamping clock located at the City Clerk's office. It is the Bidder's sole responsibility to see that this Proposal is received in proper time, and Bidders assume all risks arising out of the means of delivery. Any Proposal received after the scheduled closing time for receipt of Proposals may be returned to the Bidder unopened. Bidders or their authorized agents are invited to be present for Bid opening.

MODIFICATIONS AND ALTERNATIVE PROPOSALS: Unauthorized conditions, limitations or provisos attached to a Proposal will render it non-responsive and may be cause for rejection. The complete Proposal form must be without interlineations, alterations or erasures. No oral, telegraphic or telephonic Proposals or modifications will be considered.

WITHDRAWAL OF PROPOSAL: The Proposal may be withdrawn upon request by the Bidder without prejudice, provided that the request is in writing, has been executed by the Bidder or his or her duly authorized representative, and is filed with the Project Administrator before the date and time fixed for opening of Bids. No Proposal may be withdrawn during the period of ninety (90) Days after the opening of Proposals.

BIDDER'S SECURITY: Not required

ADDENDA: The Project Administrator may, from time to time, issue Addenda to the Contract Documents. Parties that have obtained the Contract Documents shall be notified of and furnished with copies of such Addenda, either by certified mail, personal delivery, or facsimile during the period of advertising at no additional cost. The City may determine, in its sole discretion, whether an Addendum requires the postponement of the date set for opening Bids. The announcement of the new date, if any, shall be made within the Addenda. **Please Note:** Bidders are primarily and ultimately responsible for ensuring that they have received any and all Addenda. To this end, each Bidder should contact the City to verify that he or she has received all Addenda issued, if any. Bidders must acknowledge receipt of all Addenda, if any, in its Proposal. Failure to acknowledge receipt of all Addenda may cause a Proposal to be deemed incomplete and non-responsive.

DISCREPANCIES IN PROPOSALS: The Bidder shall set forth as to each item of Work, in clearly legible figures, a unit or line item Bid amount for the item in the respective spaces provided for this purpose.

In case of discrepancy between the unit price and the total set forth for the item, the unit price shall prevail. However, if the amount set forth as a unit price is ambiguous, unintelligible or uncertain for any cause, or is omitted, or if the unit price is the same amount as the entry in the "Total" column, then the amount set forth in the "Total" column for the item shall prevail in accordance with the following:

- (1) As to lump sum items, the amount set forth in the "Total" column shall be the unit price.
- (2) As to unit price items, the amount set forth in the "Total" column shall be divided by the estimated quantity for the item and the price thus obtained shall be the unit price.

In case of discrepancy between words and figures, the words shall prevail.

BIDDER'S EXAMINATION OF SITE AND CONTRACT DOCUMENTS: Each Bidder must carefully examine the site of the Project, the entirety of the Contract Documents and all Addenda issued. Upon submission of a Proposal, it will be assumed that the Bidder has thoroughly investigated the Work and is satisfied as to the conditions to be encountered and the character, quality, and quantities of Work to be performed and materials to

be furnished. Upon Proposal submission, it shall be further assumed that the Bidder is familiar with and agrees to the requirements of the Contract Documents and all Addenda issued. The submission of a Proposal shall be considered conclusive evidence that the Bidder has made such an examination and consents thereto. No information derived from an inspection of records or investigation will in any way relieve the Contractor from his or her obligations under the Contract Documents or any Addenda issued nor entitle the Contractor to any additional compensation. By submitting his or her Proposal, the Contractor agrees not to make any claim against the City based upon ignorance or misunderstanding of any condition of the Work site or of the requirements set forth in the Contract Documents or Addenda.

DISQUALIFICATION OF BIDDERS: No Person shall be allowed to make, file or be interested in more than one Bid for the same project, unless alternate Bids are specifically called for. A Person that has submitted a sub-proposal to a Bidder, or that has quoted prices of materials to a Bidder, is not hereby disqualified from submitting a sub-proposal or quoting prices to other Bidders or making a prime Proposal. If there is a reason to believe that collusion exists among the Bidders, all affected Bids will be rejected.

AWARD OF CONTRACT: The City reserves the right to reject any or all Proposals or any parts thereof or to waive any irregularities or informalities in any Proposal or in the bidding. The award of the Contract, if made, will be to the lowest responsible Bidder within ninety (90) Days after the opening of the Proposals, except that the award may be made after that period if the successful Bidder has not given the City written notice of the withdrawal of his or her Bid.

ADDITIVE OR DEDUCTIVE BIDS: If additive or deductive Bids are required, the lowest Bid shall be the Proposal with the lowest base bid, plus all of the alternate Bids, minus all of the deductive Bids, as listed in the Proposal forms. This determination method shall be used regardless of whether additive or deductive items are included in the project, which shall be at the City's discretion.

LISTING SUBCONTRACTORS: Each Bidder shall submit a list of the proposed Subcontractors on this Project, as required by the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100, *et seq.*). A form for this purpose is furnished with the Proposal.

EXECUTION OF CONTRACT: The Bidder to whom award of the Project is made shall execute a written contract with the City in the form included in these Contract Documents within fifteen (15) Days from the date of mailing of written notice of the award. This Bidder shall also secure all insurance and Bonds as herein specified, and provide copies therefor to the City, within fifteen (15) Days from the date of mailing of written notice of the award. Failure or refusal to enter into the Contract or to conform to any of the stipulated requirements shall be just cause for the annulment of the award and forfeiture of the Bidder's security. In the event the Bidder to whom an award is made fails or refuses to execute the Contract within that time, the City may declare the Bidder's security forfeited, and the City Council may award the Work to the next lowest responsible Bidder, or may call for new Bids. Where the City Council awards the Work to the next lowest responsible Bidder, pursuant to Public Contract Code Section 20174, the amount of the lowest Bidder's security shall be applied to the difference between the lowest and next lowest Bid and the surplus, if any, shall be returned to the lowest Bidder or to his or her Surety. If the second lowest responsible Bidder fails or refuses to execute the Contract, the City Council may award the Contract to the third lowest responsible Bidder pursuant to Public Contract Code Section 20174.

SIGNATURES: The Bidder or his, her or its authorized representative shall execute all documents requiring signatures, including but not limited to various forms in the Proposal, various forms in the Contract, and Bonds. Bidders shall provide evidence satisfactory to the City, such as an authenticated resolution of its Board of Directors or a Power of Attorney, indicating the capacity of the person signing the Proposal to bind the Bidder to each Proposal and to any Contract arising therefrom.

INSURANCE AND BONDS: The Contractor shall not begin Work under the Contract until it has given the City evidence of all required insurance coverage, including all additional insured endorsements. The Contractor also shall not begin Work under the Contract until it has furnished to the City two Bonds: one guaranteeing the Contractor's faithful performance of the Contract, and other securing the payment of claims for labor and material. Each of these Bonds shall be executed in a sum equal to the Contract amount.

INDEMNITY: The indemnity shall be as written in Section 7.B of the Specifications.

INTERPRETATION OF CONTRACT DOCUMENTS: If any Bidder is in doubt as to the intended meaning of any part of the Contract Documents, or finds discrepancies in or omissions from the Contract Documents, he or she may submit to the Project Administrator a written request for an interpretation or correction not later than five (5) working days before Bid opening. The Person submitting the request will be responsible for its prompt delivery, and no requests will be accepted or considered after that time. Any interpretation or correction of the Contract Documents will be made only by an Addendum duly issued and mailed, with a copy of such Addendum faxed or emailed, to each Person receiving a set of the Contract Documents. No oral interpretation of any provision in the Contract Documents shall be binding.

TAXES: Except as may be otherwise specifically provided herein, all sales and/or use taxes assessed by federal, State or local authorities on materials used or furnished by the Contractor in performing the Work hereunder shall be paid by the Contractor. Contractor shall calculate payment for all sales, unemployment, pension and other taxes imposed by federal, State, and local law and shall include these payments in the total Proposal.

The provisions below shall supplement but not replace those provisions in Section 3 of the Standard Specifications.

A. INCREASES, ALTERATION AND DECREASES OF THE WORK TO BE DONE

The City reserves the right to increase or decrease the quantity of any item or portion of the Work described in the Contract Documents or the Proposal form or to alter or omit portions of the Work so described, as may be deemed necessary or expedient by the Project Administrator, without in any way making the Contract void. Such increases, alterations or decreases of Work shall be considered and treated as though originally contracted for, and shall be subject to all the terms, conditions and provisions of the original Contract. The Contractor shall not claim or bring suit for damages, whether for loss of profits or otherwise, on account of any decrease, alteration or omission of any kind of Work to be done.

B. EXTRA WORK

Section 3-3.2.3 (“Markup”) of the Standard Specifications is hereby deleted and replaced with the following:

The term "Net Cost of Extra Work" shall mean the actual costs necessarily incurred by Contractor and all subcontractors that actually perform the Extra Work caused by the change(s) in the Work, and consists of costs of labor, materials and equipment rental only. Overhead and profit allowed under this Article shall be deemed to include all costs and expenses, which the Contractor or any of its subcontractors may incur in the performance of a change in the Work and which are not otherwise specifically recoverable, by them pursuant to this Article 7. The "Net Cost of Extra Work" shall be limited to the following to the extent so incurred:

1. **Labor** - The costs of labor will be the actual straight-time cost for wages prevailing locally for each craft or type of worker at the time the Extra Work is done at the Project Site, plus employer payments collectively referred to as "Fringe Benefits and Payroll Taxes," of payroll, taxes and insurance, health and welfare pension, vacation, apprenticeship funds, and other direct costs resulting from Federal, State or local laws, as well as assessments or benefits required by lawful collective bargaining agreements. The use of a labor classification, which would increase the Net Cost of Extra Work, will not be permitted unless the Contractor establishes the necessity for such additional costs. Labor costs for equipment operators and helpers shall be reported only when such costs are not included in the invoice for equipment rental. Wages or salaries and Fringe Benefits and Payroll Taxes of necessary supervisory and administrative personnel directly employed at the Project Site for the supervision of the Extra Work are included, but only (1) if the Extra Work requires an extension of Contract Time or requires direct supervision of approved overtime Work and (2) to the extent such personnel are solely engaged in supervising such Extra Work during periods of overtime or extension of the Contract Time.

2. **Material** - The cost of materials reported shall be at invoice or lowest current price at which such materials are locally available and delivered to the jobsite in the quantities involved, plus sales tax, freight and delivery. The City reserves the right to approve materials and sources of supply, or to supply materials to the Contractor, if necessary, for the progress of the work. No mark-up shall be applied to any material provided by the City. Material re-stocking charges shall be limited to 5% of the amount of material.

3. **Tool and Equipment Rental** - No payment will be made for the use of tools which have a replacement value of \$500 or less. Final payment shall be made by the City not more than forty (40) days after completion of the above, but only to the extent that no stop notices or other requirements to withhold funds are then in effect.

5. Substitute Security.

In accordance with Public Contract Code Section 22300, the Contractor may request that it be permitted to substitute securities in lieu of having retention withheld by the City from progress payments when such payments become due or, in the alternative, Contractor may request that the City make payments of earned retentions directly to an agreed upon designated escrow agent at Contractor's expense. If the Contractor selects either one of these alternatives, the following shall control:

a) Substitution of Securities for Performance Retention

At some reasonable time before any progress payment would otherwise be due and payable to Contractor in the performance of Work under these Contract Documents, the Contractor may submit a request to the City in writing to permit the substitution of retentions with securities equivalent to the amount estimated by the City ("estimated amount of retention") to be withheld. Contractor shall deposit such securities with the City or may, in the alternative, deposit such securities in escrow with a State or federally chartered bank in California, as the escrow agent, and at the Contractor's expense. Such securities will be the equivalent or greater in value of the estimated amount of retention. If the Contract is modified by written Modifications or Change Orders or Contractor otherwise becomes entitled to receive an amount more than the Contract amount at the time the securities are deposited, the Contractor shall, at the request of the City, deposit with the City or escrow agent, whichever is applicable, additional securities within a reasonable time so that the amount of securities on deposit with the City or escrow agent is equivalent or greater in value than the amount of retention the City would otherwise be entitled to withhold from progress payments due or to become due to the Contractor as the Work progresses. The City shall withhold any retention amount that exceeds the security amount until the additional securities are deposited and, if the deposit is with an escrow agent, the City has confirmation from that escrow agent of the new total value

of securities. Upon satisfactory completion of the Contract, which shall mean, among other things, that the City is not otherwise entitled to retain proceeds from progress payments as elsewhere provided in the Contract or under applicable law, the securities shall be returned to the Contractor. The City shall, within its sole discretion, determine whether the amount of the securities on deposit with the City or escrow agent is equal to or greater than the amount of estimated retention of progress payments which could otherwise be held by the City if the Contractor had not elected to substitute same with securities.

b) Deposit of Retention Proceeds with an Escrow Agent

As an alternative to the substitution of securities, as provided above, or the City otherwise retaining and holding retention proceeds from progress payments, the Contractor may request the City to make payments of retentions earned directly to an escrow agent with the same qualifications as required in paragraph (1) above and at the expense of the Contractor. At its sole expense, the Contractor may direct the investment of such retention payments into only such securities as mentioned in paragraph (3) below and shall be entitled to interest earned on such investments on the same terms provided for securities deposited by Contractor. Upon satisfactory completion of the Contract, which shall mean when the City would not otherwise be entitled to withhold retention proceeds from progress payments had the Contractor not elected to have such proceeds deposited into escrow, Contractor shall be allowed to receive from the escrow agent all securities, interest and payments deposited into escrow pursuant to the terms of this Section. The Contractor shall pay to each Subcontractor, not later than ten (10) Days of receipt of payment, the respective amount of interest earned, net of costs attributed to retention withheld from each Subcontractor, on the amount withheld to insure performance of the Contractor.

c) Subcontractor Entitlement to Interest

Any Contractor who elects to receive interest on moneys withheld in retention by the City shall, at the request of any Subcontractor performing more than five percent (5%) of the Contractor's total Bid, make that option available to the Subcontractor regarding any moneys withheld in retention by the Contractor from the Subcontractor. If the Contractor elects to receive interest on any moneys withheld in retention by the City, then the Subcontractor shall receive the identical rate of interest received by the Contractor on any retention moneys withheld from Subcontractor by the Contractor, less any actual pro rata costs associated with administering and calculating that interest. In the event that the interest rate is a fluctuating rate, the rate for the Subcontractor shall be determined by calculating the interest rate paid during the time that retentions were withheld from the Subcontractor. If the Contractor elects to substitute securities in lieu of retention, then, by mutual consent of the Contractor and Subcontractor, the Subcontractor may substitute securities in exchange for the release of moneys held in retention by the Contractor. The Contractor shall pay each Subcontractor, not later than ten (10) Days after receipt of escrow moneys, the amount owed to each Subcontractor from the moneys plus the respective amount of interest earned, net of costs attributed to the retention held from each Subcontractor, on the amount of retention withheld to insure performance of the Subcontractor.

d) Securities Eligible for Investment

Securities eligible for investment shall include those listed in California Government Code Section 16430, bank or savings and loan certificates of deposit, interest-bearing demand deposit accounts, standby letters of credit, or any other security mutually agreed upon between the Contractor and the City. The Contractor shall be the beneficial owner of any securities substituted for any monies withheld and shall receive any interest thereon.

e) Escrow Agreement for Security Deposits in Lieu of Retention

The escrow agreement that shall be used for the deposit of securities in lieu of retention shall substantially conform to the form prescribed in California Public Contract Code Section 22300(f).

f) Inconsistencies with Prevailing Statutory Requirements

If there is any inconsistency between or differences in Public Contract Code Section 22300 and the terms of this provision, or any future amendments thereto, Section 22300 shall control.

C. AUDIT

The City or its representative shall have the option of inspecting and/or auditing all records and other written materials used by Contractor in preparing its billings to the City as a condition precedent to any payment to Contractor or in response to a construction claim or a Public Records Act request. Contractor will promptly furnish documents requested by the City at no cost. Additionally, Contractor shall be subject to State Auditor examination and audit at the request of the City or as part of any audit of the City, for a period of three (3) years after final payment under the Contract.

10. ADDITIONAL TERMS

A. REQUIRED LICENSES

The Contractor shall possess a valid Class B Contractor's license issued by California State Contractors License Board. The Contractor shall also be required to possess a City business license. In accordance with Section 7028.15 of the Business and Professions Code, all Contractors shall be licensed in accordance with the laws of the State of California and any Contractor or Subcontractor not so licensed is subject to the penalties imposed by such laws.

Contractor understands and agrees that it is bound by and shall comply with the nondiscrimination mandates of all statutes and local ordinances and regulations.

D. NOTICE TO PROCEED

Upon award of this Contract and signing the Contract Documents, the City shall issue the Contractor a Notice to Proceed. The City will not authorize any Work to be done under these Contract Documents before the Contract has been fully executed. Any Work that is done by the Contractor in advance of such time shall be considered as being done at Contractor's own risk and responsibility, and as a consequence will be subject to rejection.

E. CONTRACTOR'S RESPONSIBILITY FOR WORK

Until the final acceptance of the Work by the City as defined in Section 6.F.1 of the General Provisions, by written action of the Project Administrator, the Contractor shall have the charge and care thereof and shall bear the risk of injury or damage to any part of the Work by the action of the elements or any other cause. The Contractor shall rebuild, repair, restore and make good all injuries or damages to any portion of the Work occasioned by any cause before its completion and acceptance and shall bear the expense thereof, except for such injuries or damages arising from the sole negligence of willful misconduct of the City, its officers, agents or employees. In the case of suspension of Work from any cause whatever, the Contractor shall be responsible for all materials and the protection of Work already completed, shall properly store and protect them if necessary, and shall provide suitable drainage and erect temporary structures where necessary.

In addition, no Work will be allowed on any special election day which may be declared. Should a special election day be declared, a time extension of one (1) working day will be granted for each such day.

Whenever the Contractor is permitted or directed to perform night Work or to vary the period during which Work is performed during the day, Contractor shall give twelve (12) hours notice to the Inspector so that inspection may be provided. Also, a charge may be made to the Contractor for approved overtime or weekend inspections requested by the Contractor.

K. CLAIM DISPUTE RESOLUTION

In the event of any dispute or controversy with the City over any matter whatsoever, Contractor shall not cause any delay or cessation in or of Work, but shall proceed with the performance of the Work in dispute. Contractor shall retain any and all rights provided that pertain to the resolution of disputes and protests between the parties. The Disputed Work will be categorized as an “unresolved dispute” and payment, if any, shall be as later determined by mutual agreement or a court of law. Contractor shall keep accurate, detailed records of all Disputed Work, claims and other disputed matters.

All claims arising out of or related to the Contract Documents or this Project, and the consideration and payment of such claims, are subject to the provisions of the Division 3.6 (commencing with Government Code Section 810) of Title 1 of the Government Code (the “Government Claims Act”) with regard to filing claims and to Article 1.5 (commencing with Section 20104) of Division 2, Part 3 of the Public Contract Code regarding the resolution of public works claims of \$375,000 or less. This Contract hereby incorporates those provisions as through fully set forth herein. Thus, Contractor or any Subcontractor must file a claim in accordance with the Government Claims Act as a prerequisite to filing a construction claim in compliance with Article 1.5, and must then adhere to Article 1.5.

L. THIRD PARTY CLAIMS

City shall have full authority to compromise or otherwise settle any claim relating to the Project at any time. City shall timely notify Contractor of the receipt of any third-party claim relating to the Project. City shall be entitled to recover its reasonable costs incurred in providing this notice.

impediments of any kind that will limit or prevent its full performance under the Contract Documents; c) there is no litigation pending against Contractor, and Contractor is not the subject of any criminal investigation or proceeding; and d) to Contractor's actual knowledge, neither Contractor nor its personnel have been convicted of a felony.

O. CONFLICTS OF INTEREST

Contractor agrees not to accept any employment or representation during the term of the Contract or within twelve (12) months after acceptance as defined in Section 6.F.1 of the General Provisions that is or may likely make Contractor "financially interested," as provided in Government Code Section 1090 and 87100, in any decisions made by City on any matter in connection with which Contractor has been retained pursuant to the Contract Documents.

P. APPLICABLE LAW

The validity, interpretation, and performance of these Contract Documents shall be controlled by and construed under the laws of the State of California, excluding California's choice of law rules. Venue for any such action relating to the Contract shall be in the Los Angeles County Superior Court.

Q. TIME

R. INDEPENDENT CONTRACTOR

Contractor and Subcontractors shall at all times remain, as to the City, wholly independent contractors. Neither the City nor any of its officials, officers, employees or agents shall have control over the conduct of Contractor, Subcontractors, or any of their officers, employees, or agents, except as herein set forth, and Contractor and Subcontractors are free to dispose of all portions of their time and activities which they are not obligated to devote to the City in such a manner and to such Persons that the Contractor or Subcontractors wish except as expressly provided in these Contract Documents. Contractor shall include this provision in all contracts with all Subcontractors.

S. CONSTRUCTION

In the event of any asserted ambiguity in, or dispute regarding the interpretation of any matter herein, the interpretation of these Contract Documents shall not be resolved by any rules of interpretation providing for interpretation against the party who causes the uncertainty to exist or against the party who drafted the Contract Documents or who drafted that portion of the Contract Documents.

T. NON-WAIVER OF TERMS, RIGHTS AND REMEDIES

Waiver by either party of any one or more of the conditions of performance under these Contract Documents shall not be a waiver of any other condition of performance under these Contract Documents. In no event shall the making by the City of any payment to Contractor constitute or be construed as a waiver by the City of any breach of covenant, or any default which may then exist on the part of Contractor, and the making of any such payment by the City shall in no way impair or prejudice any right or remedy available to the City with regard to such breach or default.

U. TERM

The Contract is effective as of the Effective Date listed, and shall remain in full force and effect until Contractor has fully rendered the services required by the Contract Documents or the Contract has been otherwise terminated by the City. Painting of defective or unsuitable surface implies acceptance of the surfaces.
- B. Beware of a condition known as critical lighting. This condition causes shadows that accentuate even the slightest surface variations. A pigmented sealer will provide tooth for succeeding decorative coating, but "does not" equalize smoothness or surface texture. Any corrective action to drywall must be done by the drywall contractor prior to decorating.

- A. Protect previously installed work and materials, which may be affected by Work of this Section.
 - 1. Protect prefinished surfaces, lawns, shrubbery and adjacent surfaces against paint and damage.

- D. Sand and scrape metal to remove loose primer and rust.
- E. Non-Ferrous Metal: Chemically or solvent clean and then treat with an etching-type solution if recommended by the finish manufacturer. Cleaned and retreated Non-Ferrous Metal shall be primed the same day that cleaning has been performed.
- F. Wood Surfaces: Remove dust, grit and foreign matter. Sand surfaces and dust clean. Spot coat knots, pitch streaks, and sappy section with pigmented stain sealer when surfaces are to be painted. Fill nail holes, cracks and other defects after priming and spot prime repairs when fully cured.

- H. Existing surfaces to be recoated shall be thoroughly cleaned and de-glossed by sanding or other means prior to painting. Patched and bare areas shall be spot primed with same primer as specified for new work.
- I. Thoroughly back-paint all surfaces of exterior and interior finish lumber and millwork, including doors and window frames, trim, cabinetwork, etc., which will be concealed after installation. Back-paint items to be painted or enameled with the priming coat. Use a clear sealer for back-priming where transparent finish is required.
- J. Bare and covered pipes, ducts, hangers, exposed steel and ironwork, and primed metal surfaces of equipment installed under mechanical and electrical work shall be cleaned prior to priming.
- K. Preparation of other surfaces shall be performed following specific recommendations of the coatings manufacturer.
- L. Bond breakers and curing agents shall be removed and the surface cleaned before primers, sealers or finish paints can be applied.
- M. All drywall surfaces shall be completely dry and dust free before painting. Skim coated drywall shall be sealed with a sealer recommended by the paint manufacturer for this surface. Use the appropriate light or medium tack masking tape.

3.04 SURFACE PREPARATION (for repaint of existing surfaces)

- B. Surface preparation:
 - 1. Clean all surfaces scheduled to receive new paint coatings free from all dirt, dust, oxidized paint film, loose and unsound paint coatings, and other foreign matter.
 - 2. Locate unsound gypsum board tape joints, and similar unsound areas, and patch as needed to provide a smooth substrate for application of the paint coating.
- 3. Exterior Metal
 - a. Power wash, hand or power-tool clean to remove all oils, dust, dirt, grease or other surface contaminants. Remove all rust and scale, and spot prime with specified primers. Severely rusted surfaces may require sandblasting followed by priming immediately with the specified rust-inhibitive primer, applied to completely cover the sandblasting profile. Provide a clean, dry surface suitable for the application of primers and finish coats.
 - b. Galvanized metals must be cleaned to remove all oils, dust, dirt or grease. Care must be taken to ensure that the appropriate primer is issued, as this may differ from primers used on ferrous metals.

 - c. Repair cracks and voids to match the texture and plane of the area in which the repair occurs.

3.05 APPLICATION:

- A. Apply painting and finishing materials in accordance with the manufacturer's recommendations.
 - 1. The number of coats specified is the minimum that shall be applied. Apply additional coats when undercoats, stains or other conditions show through final paint coat, until paint film is of uniform finish, color and appearance.
- B. Apply each material at not less than the manufacturer's recommended spreading rate:
- C. Apply prime coat to surface which is required to be painted or finished.
- D. Finish exterior doors on tops, bottoms, and edges same as exterior faces, after fitting.
- E. Sand lightly and dust clean between succeeding coats.

3.06 CLEANING, TOUCH-UP AND REFINISHING:

- A. Carefully remove all spattering, spots and blemishes caused by work under this section from surfaces throughout the project.
- B. Upon completion of painting work remove all rubbish, paint cans, and accumulated materials resulting from work in each space or room. All areas shall be left in a clean, orderly condition.
- C. Runs, sags, misses, holidays, stains and other defects in the painted surfaces, including inadequate coverage and mil thickness shall be satisfactorily touched up, or refinished, or repainted as necessary.

3.07 FINISH SCHEDULE

- A. Apply the following finishes to the surfaces specified on the finish schedule or on the drawings. Apply all materials in accordance with manufacturer's instructions on properly prepared surfaces and foundation coats. All intermediate undercoats must be tinted to approximate the final color.
